

Uta Halee Academy recognizes the importance of providing meaningful activities and memories for its students and their families. Recently, the Student Government Club (known as GROWL) organized and hosted the first luncheon for parents and students during a family visit day last Saturday. The event - which will become a monthly feature on campus - coordinated the organizational oversight of the GROWL students with the talents of the Culinary Arts students.

The two clubs planned and prepared the meal together, and the resulting lunch (with a menu consisting of chicken salad on croissants, pasta salad and cookies) was well received by the students and their families who were grateful for the opportunity to spend quality time together.
