

# RITE NOW @ ROP

---

Our Contributor Victoria was selected and participated in a Day of Beauty at the Capital School of Hair. Every group of students at the school, is required to complete a haircut, high-lite, style and makeup application on a guest of their choice. They must complete this task within 5 hours from start to finish. Our first Contributor and first Leader Mentor Sara, who is currently a cosmetology student at Capital, extended this invitation to Victoria to be her guest. Victoria had baliage highlites put in her hair, her hair trimmed and styled and makeup applied. Sara did an amazing job and Victoria was beyond thrilled with her new look. It was exciting to see the success of our former UHA student working with a student who presented as a challenge upon arrival but now is a leader on our campus as well as seeing them talk to one another about the program, their successes and their goals. UHA is incredibly proud of both of our young ladies!
