

RITE NOW @ ROP

In recognition of Black History Month, the young ladies in 9th Block Rap Club at Uta Halee Academy came up with the idea to write and record a song to celebrate women in Rap and R&B., a song that they named "Trailblazers." The ladies wrote the lyrics, and vocalized all aspects of the song including background vocals. With the assistance of Site Trainer Tarrence Barlow, the song was recorded in a studio space and produced into a video. The talent that these students possess, along with their excitement and creativity, inspires the other students and staff alike. All of us at Uta Halee Academy are so proud of them!
